# **RPI-130**

## Photointerrupter, Ultraminiature DIP type

#### Absolute maximum ratings (Ta=25°C)

|                                   | Parameter                   | Symbol | Limits     | Unit |
|-----------------------------------|-----------------------------|--------|------------|------|
| ED)                               | Forward current             | lF     | 50         | mA   |
| Input (LED)                       | Reverse voltage             | VR     | 5          | V    |
| Inpu                              | Power dissipation           | PD     | 80         | mW   |
| Output<br>(photo-<br>(transistor) | Collector-emitter voltage   | VCEO   | 30         | V    |
|                                   | Emitter-collector voltage   | VECO   | 4.5        | V    |
|                                   | Collector current           | lc     | 30         | mA   |
|                                   | Collector power dissipation | Pc     | 80         | mW   |
|                                   | Operating temperature       | Topr   | -25 to +85 | °C   |
|                                   | Storage temperature         | Tstg   | -30 to +85 | °C   |

#### Electrical and optical characteristics (Ta=25°C)

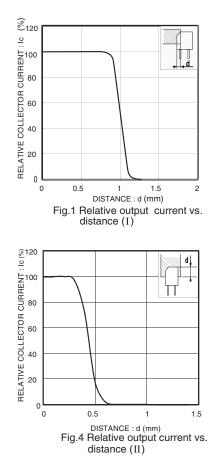

Applications

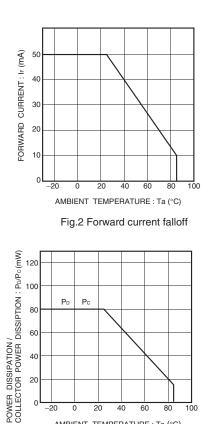

DSC(Digital steal camera) DVC(Digital video camera) Digital handy phone

#### Features

|-------------------------------|--|
| The                           | e content specified herein is subject to change for improvement without notice.  |
| "Pr                           | e content specified herein is for the purpose of introducing ROHM's products (hereinafte oducts"). If you wish to use any such Product, please be sure to refer to the specifications ich can be obtained from ROHM upon request.  |
| illu                          | amples of application circuits, circuit constants and any other information contained herein<br>strate the standard usage and operations of the Products. The peripheral conditions mus<br>taken into account when designing circuits for mass production.   |
| Ho                            | eat care was taken in ensuring the accuracy of the information specified in this document<br>wever, should you incur any damage arising from any inaccuracy or misprint of such<br>prmation, ROHM shall bear no responsibility for such damage.  |
| exa<br>imp<br>oth             | e technical information specified herein is intended only to show the typical functions of an<br>amples of application circuits for the Products. ROHM does not grant you, explicitly o<br>plicitly, any license to use or exercise intellectual property or other rights held by ROHM and<br>er parties. ROHM shall bear no responsibility whatsoever for any dispute arising from the<br>e of such technical information.  |
| equ                           | e Products specified in this document are intended to be used with general-use electronic<br>upment or devices (such as audio visual equipment, office-automation equipment, commu<br>ation devices, electronic appliances and amusement devices).   |
| The                           | e Products specified in this document are not designed to be radiation tolerant.   |
|                               | ile ROHM always makes efforts to enhance the quality and reliability of its Products, a<br>oduct may fail or malfunction for a variety of reasons.   |
| aga<br>fail<br>sha            | ase be sure to implement in your equipment using the Products safety measures to guard<br>ainst the possibility of physical injury, fire or any other damage caused in the event of the<br>ure of any Product, such as derating, redundancy, fire control and fail-safe designs. ROHM<br>all bear no responsibility whatsoever for your use of any Product outside of the prescribed<br>ope or not in accordance with the instruction manual.  |
| sys<br>ma<br>ins<br>cor<br>of | e Products are not designed or manufactured to be used with any equipment, device o<br>stem which requires an extremely high level of reliability the failure or malfunction of which<br>y result in a direct threat to human life or create a risk of human injury (such as a medica<br>trument, transportation equipment, aerospace machinery, nuclear-reactor controller, fuel-<br>ntroller or other safety device). ROHM shall bear no responsibility in any way for use of any<br>the Products for the above special purposes. If a Product is intended to be used for any<br>ch special purpose, please contact a ROHM sales representative before purchasing. |
| be                            | rou intend to export or ship overseas any Product or technology specified herein that may<br>controlled under the Foreign Exchange and the Foreign Trade Law, you will be required to<br>tain a license or permit under the Law.   |

Thank you for your accessing to ROHM product informations. More detail product informations and catalogs are available, please contact us.
